TOLL NOW IS 13 BOATS

Undersea Vessels Have Not
Apparently Returned to Their
Bases As Yet

NO TORPEDO HAS YET BEEN USED

Loss of Life on Carolina Now
Reduced to Sixteen By Re-
vised Figures of Company

New York, June 5.—Two more vessels, a Norwegian steamship and one schooner were added today to the list of ships known to have been sunk by the German submarines which are raiding in American waters. The total now stands at 13—five steamers and eight schooners.

The fact which stood out most prominently in the day's developments is that the U-boats are still operating near the coast and have not returned to their bases, assuming that the two which already have been identified are the only ones on this side of the Atlantic.

Norwegian Steamer Goes Down

This was demonstrated when the Norwegian steamer, Eidvold, was sunk off the Virginia capes late yesterday. The location of the attack shows also that the submarines are moving steadily southward, if they are the same ones which attacked shipping almost at the gateway to New York harbor. The navy department reported yesterday an encounter between a destroyer and a submarine off the coast of Maryland.

Another fact which is regarded as significant in maritime circles here is that none of the vessels reported sunk thus far was sent to the bottom by a torpedo. It is considered certain that the undersea craft carry torpedoes and that they are conserving them in the hope that they may get an opportunity sooner or later to attack a transport loaded with American troops. The unarmed merchant ships which have been attacked thus far have been sent to the bottom by the use of bombs and shell fire.

Six Vessels Are Missing

Possibility that vessels still unreported may have been sunk was seen in a statement of the master of the schooner Samuel C. Mengel, who arrived here today with his rescued crew. He declared he was told by the commander of the submarine which destroyed his ship that the U-boat had sunk three steamers, one a passenger liner, and three schooners, last Saturday. No vessels have been reported sunk that day and it is believed either the U-boat captain was lying or that Capt. Hansen misunderstood him.

So far as known the only loss of life was aboard the New York and Porto Rico liner Carolina, and that was definitely established tonight at only 16, by revised figures compiled by the company, showing there were aboard the vessel only 218 passengers and 211 in the crew, making a total of 429, instead of 550 as originally reported. All those who perished evidently were lost from the lifeboat which arrived yesterday at Lewis Del. Ten of them were passengers and six were members of the crew.

ARMY OF 300,000 ITALIAN BOYS

New York, June 5.—Three hundred thousand Italian boys between the ages of 15 and 20 have been formed into a junior army trained, equipped and ready for battle according to Maj. Carlo Cattapani, commissioner of the Boy Scouts of Italy, who delivered an address here today.

These lads, the commissioner declared, were stirred to prepare themselves to fight in defense of the womanhood of Italy.

CABINET DISCUSS SUBMARINES

Washington, D. C., June 5.—Submarine activities off the American coast were discussed at today's session of President Wilson's war cabinet. Afterward Food Administration Director Hoover said the food supplies for the armies overseas had not been endangered by the appearance of the German raiders and that no fears were entertained in that regard.

136 Men Register in Oneonta Under Selective Service Act

Only Two Aliens; One a Negro—No Disorder—
Many Farmers and Railroad Men—Youths
of High Calibre—Their Names

The Local Board for Oneonta and vicinity yesterday registered 136 young men who have become of age since June 5, 1917, and are thus liable under the selective service act for military service for duty overseas. The youths called at the office of the board, room 8, in the Oneonta building between the hours of 7 a. m. and 5 p. m., displaying an eagerness to fill out the cards. The day's work proceeded smoothly with not a sign of disorder.

Most of those who registered were either farmers or railroad men, which officials of the board said last night, would indicate a large percentage of claims for agricultural claims and possible exemptions. The number of farmers in the new registration is considerably higher than the average on the last call.

Among the 136 who appeared, only two were aliens, one a citizen of Switzerland, the other of Turkey. Only one negro applied.

As a whole the men were excellent types of manhood and in excellent physical condition. Comparatively few of them were married. A striking fact of the registration is that a majority of the men were ignorant of the place of birth of their father; while some did not know their own birthplace.

A number of men made inquiries during the day in regard to enlistment. So far as possible they were informed on this matter, and told that it is not expected that any of them will be drafted before July 15, at the earliest. In the interim, the Local Board, is of the opinion that ample opportunity will be given the men to enlist if they so choose.

One man who registered yesterday, Michael Chicorelli, an Italian, has three brothers in the service, and is very anxious to get with the colors as soon as possible. He is expected to take the first opportunity to enlist.

Although the registration did not cease until 5 o'clock, the cards of the registrants prepared, and a report was on its way by telegraph to the adjutant general of the state before midnight. In numbering the cards, they were first shuffled in various ways and then the numbers put on in black ink, starting with the card that came on top and going on down through the pile. These numbers are officially known as "registration numbers." There will be no serial numbers, so-called. It is understood that a national drawing will be made in Washington in a short time following the same method as used in the first registration, when Secretary of War Baker blindfolded stood before a high glass bowl filled with capsules containing numbers running as high as 200,000 to cover the largest registration district in the country and drew out the first capsule, after which official drawers set to work in the same manner. The numbers at that time were handed to another man who read them off, while men standing before huge blackboards wrote them down.

The questionnaire system will be used in this second draft just as in the first. It is estimated that all questionnaires will be classified within six weeks from yesterday. Legal advisory boards will be at the call of the men to aid them in filling out their questionnaires.

The official list of those who registered yesterday, and their registration numbers follow. The men are advised to bear this registration number in mind:

U-BOAT SHELLS FRENCH VESSEL

Captain of Radioline Tells of
Attack Frustrated By U. S.
Destroyer

FIRES FIFTEEN SHOTS

Submarine Quickly Submerges
Upon Arrival of Warship Answering "S. O. S." Call

An Atlantic Port, June 5.—An American armed freight steamship, which arrived here today from an Italian port, fired a number of shots Monday afternoon at what was believed to be a German submarine in a location described as about 100 miles off Barnegat light, the officers of the vessel said.

Washington, D. C., June 5.—The story of the captain of the French tanker, Radioline, attacked by a submarine off the Maryland coast yesterday, reached the navy department today, showing that the raider had fired 15 shots at the Frenchman from long range before an American destroyer answering an "S. O. S." appeared.

The destroyer passed full speed ahead toward the enemy, which promptly submerged. When the destroyer reached the spot where the U-boat had disappeared the Radioline was too far away to see what happened. None of the shots hit the tanker, and three, which she fired at the raider, went over.

The captain said the submarine was so big that when his lookout sighted her six miles away, he reported her as an American destroyer. Following is the navy department's summary of the Frenchman's story: "The submarine was so big that at first the lookout thought it was an American destroyer. She was about six miles distant from the Radioline. The submarine, when sighted lay about two lengths from a three-masted sailing ship, (probably the schooner Edward R. Baird Jr., which later was bombed and sunk), and the lookout reported it to the captain as a destroyer. But the captain with his glass reported it a submarine. The captain was in doubt as to the nationality so did not fire, but manned his guns. He changed his course from east to west and the submarine opened fire, but the Frenchman still held his fire until the submarine fired the second time. Then he fired, range about 1,200 metres.

"The French ship fired in all three shots. He kept a direct course and did not zigzag. The submarine fired between 15 and 20 shots. The Frenchman heard two shots about 15 minutes before he sighted the submarine. He believed that these were fired to stop the sailing ship.

Submarine Is Sighted

"The submarine lay broadside to the Radioline when the captain sighted it. Apparently some one from the submarine was on board the sailing ship. Whether or not their boarding party was taking stores he was uncertain. At no time was the submarine closer than six miles to the Radioline. The Radioline was making good speed while acting as a target. No shots hit her, no damage was done and there were no casualties.

"No flag was visible on the submarine. Before the Radioline fired she hoisted the French colors. The schooner mentioned was a three-masted one with all sails set. No flags were discernible, therefore the name and nationality were unknown to the Radioline.

"At 9 o'clock, June 4, the Radioline saw an English smoke box drift and

NEW METHOD IN STATE FOR DRAWING OF DRAFT

1,000,000 Youths Register;
200,000 Draft Men Called

Perfect Order Attends Second Registration—
"New Men" May Register Every Three
Months—New Draft June 24 to 28

Washington, D. C., June 5.—While the nature of any untoward occurrence attending the registration of 1,000,000 young Americans just turned 21 years of age for service in the war for world freedom orders were issued for the purpose of making the registration process as simple as possible. The registration process is being carried out in a perfect order. The registration process is being carried out in a perfect order. The registration process is being carried out in a perfect order.

The registration today apparently was attended by the perfect order that marked the enrolling a year ago of 10,000,000 men who form the great reservoir on which the nation is drawing to furnish the balance of power on the western front to crush the German war machine.

The men who appeared today before the 4,500 Local Boards over the country have become of age since the first registration day, June 5, 1917. Military authorities estimate that from their number there will be had 750,000 men fit for active duty.

Many "New Men" May Be Called

While an act of congress requires that the new registrants be placed at the bottom of the class, which they are assigned many of them may soon be called to the colors as today's requisition upon governors probably will exhaust the first class in some states. While no formal explanation was made this was believed to have been the reason why Arizona was not included in today's call.

Results of the second registration will not be known until tomorrow. General Crowder has requested the adjutant general of each state to telegraph him a comprehensive summary of the result, giving the total registration, the proportion of the number that had been expected to enroll, reasons obtained for any dif-

ferences between the figures and the 1,000,000 young Americans just turned 21 years of age for service in the war for world freedom orders were issued for the purpose of making the registration process as simple as possible. The registration process is being carried out in a perfect order. The registration process is being carried out in a perfect order. The registration process is being carried out in a perfect order.

Troops Moving Overseas Rapidly

Assignments for the men called to the colors under today's orders indicate the rapidity with which troops now are moving overseas. In nearly every instance the registrants under today's requisition are assigned to National Army cantonments, whereas recently when calls were made it was necessary to send the men to National Guard, regular army and other camps, because the cantonments were filled.

Illinois Is Directed to Furnish 28,500 Men Under the Latest Call

Illinois is directed to furnish 28,500 men under the latest call, more than double the number called from New York, which is second on the list. Pennsylvania is to furnish 12,000 and Minnesota 10,000.

The quotas and camp assignments include: New Jersey, 5,000; to Camp Dix, N. J.; New York, 10,000 to Camp Upton, N. Y.; Pennsylvania, 12,000 to Camp Lee, Va., and 5,000 to Camp Greenleaf, Ga.; Vermont, 450 to Camp Devens, Mass.

The house military committee today reported a resolution by Chairman Dent making retroactive the bill having the draft quotas on the number of men in class 1, so as to legalize any exceeding of authority as to the number or quota which may have been made in the first drafting of men. The resolution was recommended by the war department. Chairman Dent announced.

NUMBER OF MEN IN EACH BOARD REDUCED TO 347

Purpose Is to Equalize
Number Available in
Each District

NO MEN FROM OTSEGO

Draft Coming June 24 Will Not
Touch This County Nor Dela-
ware Under New Plan

BURDEN PUT ON LARGE BOARDS

Number of Men Left After Next
Contingent Goes Expected to
Be Nearer Uniform

Albany, June 5.—New York state's quota of 14,000 selective draft men, who will be sent to camps during the five days beginning June 24, will be drawn from the various draft boards under a new system. This arrangement announced today by the federal bureau of the adjutant general's office, disregards all precedents and simply reduces the number of men in class one with each board to 347. Its purpose as announced is to equalize the number of men who will remain available for military draft service with each draft board.

No Men From Otsego and Delaware.

Under the plan Buffalo city board number 3, having 206 men more than the 347 to be left must send that number while New York city board number 67 with 351 men available on its rolls will be required to send only four men.

Boards having less than 347 class 1 men will not be asked to send during the period of June 24. Thirty-four counties under this arrangement will not be required to furnish any men in the coming draft contingent. These counties are Cayuga, Chataqua, Chenango, Clinton, Columbia, Cortland, Delaware, Luchess, Essex, Franklin, Fulton, Green, Hamilton, Lewis, Livingston, Monroe, Madison, Ontario, Orleans, Oswego, Otsego, Rockland, Schoharie, Schuyler, Seneca, Suffolk, Sullivan, Tioga, Tompkins, Ulster, Washington, Wayne, Wyoming, and Yates.

"The purpose of the new plan," said Maj. F. R. Hutchinson, in charge of the federal bureau of the adjutant general's office, "is to equalize the number of registrants who will remain with the various draft boards. The new call is not figured on any proportionate basis. We are merely asking the boards to send as many men as they have over the number of 347."

ROOSEVELT BACK IN GOTHAM G. O. P. CLUB

With Other Bolters of 1912,
Among Them Oscar S. Straus,
He Rejoins Regulars

New York, June 5.—Theodore Roosevelt was the most distinguished of the prodigal sons who returned to the Republican club of New York at a dinner in the club house tonight. He swept right through the crowded lobby, shouting "Hello, hello," to the men who once turned his picture to the wall, while they cheered him rapturously. He greeted with particular warmth Oscar S. Straus, once the candidate of the Progressives for governor of New York, another of the returning prodigals.

The dinner was in the nature of a reception to Will H. Hays, chairman of the Republican National committee. William R. Wilcox, the man he succeeded also was there, his face wreathed in smiles.

Gov. Charles S. Whitman was prominent "among these present" and so was Merton E. Lewis, attorney general, who will be his rival in the contest for the gubernatorial nomination in the fall. The guests included almost all the prominent Republicans in the state who are office holders and many who are not.

That is the last word received by the department showing the raider's position. In thirty hours after the attack on the Eidvold, nothing has come to indicate where the Germans were or what they were about. It is evident that the raiders have been moving steadily southward from the New Jersey coast.

The raiders were closer in shore when they attacked the Eidvold than on any previous occasion except when they launched the mines picked up off the Delaware caper. The tanker Pratt for the first time apparently struck one of these mines and a number of others exploded have been rather up in the same vicinity by patrol craft.

DISTRICT OUTGOING VESSELS

Philadelphia, Pa., June 5.—Because of the German submarine menace, vessels putting to sea from this port are still under certain restrictions in passing out the Delaware capes. In accordance with governmental instructions vessels are permitted to proceed to Brandwine light in Delaware bay, where they must anchor for the night. They will be permitted to go to sea after daylight unless conditions are deemed unsafe by scout patrols.

Restrictions which prohibited crews from going ashore from ships in the Philadelphia naval district have been rescinded.

TO COMMAND HOME FORCES

London, England, June 5.—As a temporary measure, it was officially announced tonight, Gen. Sir William Robertson, chief of the eastern command, and former chief of the imperial staff, has been appointed to command the forces in Great Britain.

CREEK INDIANS IN UPRISING

Heard, Okla., June 5.—Three white farmers have been killed and 1700 Indians of the Creek nation have armed themselves and taken refuge in the hills surrounding the Oklahoma territory, where the Creek Snake uprising occurred ten years ago, according to reports reaching here tonight. The report of the triple killing could not be confirmed.

DIES AFTER AUTO ACCIDENT

San Antonio, Texas, June 5.—Lieutenant Franklin W. Clark of Medina, Ohio, died tonight at the post hospital at Brooks field as the result of a fall two miles south of the field yesterday.

He was a graduate of Oberlin college and was a son of F. J. Clark of Medina.

THREE FRENCH AIRMEN KILLED

Paris, France, (Havas agency) June 5.—Three French aviators named Gaudierou, Huet, and Farnand were killed at the American air ground today when two airplanes collided just as they were about to land after a trial flight.

FINANCIAL AND COMMERCIAL

The New York Markets.

New York, June 5.—Stocks opened with a demonstration of strength today but reacted very generally in the later dealings on moderate offerings. The set back was accepted as a natural result of the recent advance which invited considerable profit taking.

War news was mostly favorable but offered little promise of an early passing of the strain along the French front. The submarine attack subsided completely, shippings, displaying a better tone than any other group.

The strength of marines, especially the preferred at an extreme advance of 2½ points, accompanied the news of a special meeting of the directors tomorrow.

Coppers developed sudden heaviness in the latter part of the session, reacting 1 to 3½ points, China showing marked weakness.

Professional activity again contributed to the variable strength of certain speculative issues, notably tobacco, motors, oils, fertilizers, industrial alcohol, and distillers, but pools failed to elicit any general support.

Standard industrial, equipment and rails developed a reactionary trend after their early gains. United States steel closing at half a point loss a reversal of almost two points from its best.

Liberty bonds rallied slightly from low records of the previous day and international situations, including Paris 6's and Anglo-French 5's, bargained ½ to 1 point. United States bonds (old issues) unchanged on call.

NEW IRISH CHANCELLOR.

London, England, June 5.—It is officially announced that Sir James H. Campbell has been appointed Lord Chancellor for Ireland in succession of Sir Ignatius J. O'Brien, who has retired. Sir Ignatius has been granted a peerage in the United Kingdom.

Sir James Campbell has been lord chief justice of Ireland since 1914. He is a close friend of Sir Edward Carson, the Unionist leader in the house of commons, and has been Unionist member of parliament for Dublin university since 1902.

RECORD BARGE BUILDING.

Syracuse, June 5.—A world's record for rapid barge construction was set yesterday at the emergency ship yards at Baldwinsville, when Liberty lighter No. 174 was launched. The barge was built in 10 days after the keel was laid, bettering the previous record, which was nine days. The barge is 140 feet long, 20 feet wide, and it is expected that all the barge construction for the war will be completed by the end of the month. The barge was built by the Syracuse Shipbuilding Co.

Montgomery, Al., June 5.—Aviation cadet George O. Mills, of Jersey City, N. J., was killed yesterday, when his plane caught fire and fell 2,000 feet near Taylor field.

ARE OVER THERE FOR FIGHT'S SAKE

Yankees as Eager to Get to Front as Boy Is to Go to Circus.

Y. M. C. A. MAN LAUDS MEN

American Soldiers Full of "Pep" and Keep Huns Guessing—Tell How Men Were Rushed to Picardy Line.

Washington.—They are over there for the fight's sake. In three months in France, although I encountered thousands of American soldiers and talked personally with hundreds, I did not meet one who wasn't just as keen to get to the front as well—as a boy is to get to the circus.

Any pacifist, pro-German, or other nondescript laboring under the impression that the American troops are fighting because they have to, rather than because they want to, would be quickly disillusioned after a chat with Ralph W. Harbison, Pittsburgh business man, member of the national war council of the Y. M. C. A. and head of a commission representing that body, which has just returned from a special mission to France.

Mr. Harbison spent 26 hours with the Rainbow division under heavy fire in a certain one of the American sectors.

"This used to be a quiet part of the front," Mr. Harbison explained. "That is, it was quiet until the Yankees came. Among the troops who had previously held these trenches there had been less than a score of casualties in over a year. The Boche moved about pretty much as he pleased—and really led a placid life.

Keep Huns Guessing.
"Now things are different. Yankee ingenuity is fully outdoing itself to make life miserable for Fritz. Worring him is the daily and nightly pastime.

"The thing that you cannot get away from is the high morale of our men. It fairly exudes from them. They have lots of 'pep,' are up on their toes every minute and are sending over ten shells for every three that come our way.

"These Americans also seem to have a monopoly on initiative. They keep Fritz on the jump and have him guessing all the time. But the thing that makes you proudest is that they are playing the game like real sportsmen and in their conversation and conduct even in the front lines reflect the highest ideal of America today."

The determination and grit of the men, Mr. Harbison said, were well illustrated in the story of the "Grim Private." He was encountered in one of the forward Y. M. C. A. stations located in a shell-torn village at the end of a communication trench, and his grimness was in striking contrast to the gayness of the men around him. "Fritz got my corporal yesterday," he explained. "He was also my best friend."

His fists clenched over the rifle in his hands.

"But I go back into the trenches at four in the morning. I'm going to get three Boches. My corporal was worth more than that of them, but three will begin to even things up." He got them.

It was shortly after Mr. Harbison's visit to the Rainbow division that General Pershing put at the disposal of the French the entire military resources of America "over there." Mr. Harbison encountered some of the American divisions as they were being rushed to the front to fill what we now know to have been almost a breach in the allied line.

Y. M. C. A. Beats the Troops.
In this sudden movement of troops, Mr. Harbison said, the American Y. M. C. A. made a remarkable record. In one instance orders came to a certain American division to proceed at once to a point 200 miles distant. The brigade general in command informed the divisional Y. M. C. A. secretary. Fourteen Y. M. C. A. automobile caravans were immediately loaded with chocolate, food, tobacco and other supplies.

When the troops arrived at their destination they found the Y. M. C. A. men—the same ones that had served them before in the 200-mile distant camp—awaiting them with huge quantities of food, exchange supplies and several thousand gallons of piping hot coffee and cocoa, which was given away free.

Grocers Patriotic.

Milton, Mass.—Grocers of this town discovered they had an overstock of white flour. They made an inventory and found there were 200 barrels more than their normal needs for the month. They at once notified the state food administration and the flour was distributed to other communities.

Sense of Relief.

"How did the shortage of gasoline affect you?" "Well," replied Mr. George, "it was a kind of comfort to know offhand exactly why the old machine wouldn't run."

NO RED CROSS FUNDS

FOR RESEARCH WORK

Opposition of Members Is Cause of Decision Made by War Council.

Criticism having been made of a Red Cross appropriation for medical research, including vivisection, the Red Cross war council at Washington announces that no money will be used for such purposes hereafter and such money as has been used will be refunded to the Red Cross.

In reaching this decision not to use Red Cross funds for research work, the war council does not take sides for or against vivisection, but in view of the large number of Red Cross members who object to research work, it was deemed wise to eliminate such expenditures.

The original appropriation for research work was made last August upon recommendation of army medical officers of high rank who were confronted with new diseases developed by war conditions and who thought that experiments upon animals might produce remedies. It was strictly an emergency war appropriation.

When pronounced opposition to the appropriation appeared, an individual came forward with an offer to pay for the research work out of his own resources and also to reimburse the Red Cross for past expenditures along this line, so that all Red Cross funds will be used for relief work as all members understand and approve it.

The sincere convictions of a considerable body of Red Cross members are thus respected by the Red Cross without in any sense passing judgment upon the wisdom of research work.

NO TRANSFER OF SHIPS.

Washington, D. C., June 5.—Transfer to a foreign flag of an American vessel of more than 100 tons is forbidden under a resolution adopted by the U. S. shipping board. Foreign governments or their citizens, who have been seeking ships in the United States will be permitted to contract with American yards for sailing craft, not larger than 100 tons.

CIVILIAN INSTRUCTOR KILLED.

San Diego, Cal., June 5.—Civilian instructor Stanley C. Coyle, 27 years old, of Condersport, Pa., was killed, and Flying Cadet Elwyn Chapman, 25, of Brockton, was badly injured yesterday when the airplane in which they were flying collided with another machine about 2,000 feet above Rockwell field, North Island, and fell spinning to the ground.

THE DIAMOND HOUSE OF ONEONTA FIRE

Brilliance (life, snap) is the one requisite of a DIAMOND. To be brilliant it must be well cut and properly shaped. Must be free from VISIBLE carbon spots or other blemishes.

THE DIAMOND HOUSE OF ONEONTA

Has the reputation for handling diamonds of unusual brilliancy. If you are about to purchase a diamond do not fail to inspect our well balanced stock.

Why You Should Own a Diamond

Diamonds are a safe investment. They have advanced steadily in price for the last 20 years. They are non-perishable, and if purchased from a reliable house should be worth in trade their full value. The wearer of a diamond has a certain air of prosperity. This is a great aid in these commercial times. There is a real pleasure in wearing a fine stone of any kind; the diamond is the finest of all precious stones.

BUY YOUR DIAMOND SAFELY

Deal with a house you know, either personally or by their reputation. Buy from a house that gives you a written agreement that your diamond will be worth in exchange or trade full value paid.

THE DIAMOND HOUSE OF ONEONTA

OTSEGO COUNTY NEWS

NEW HOME ECONOMICS PLAN.

Different Clubs in County Will Have Equal Representation.

Schenectady, June 5.—The June meeting of the Home Economics club was held at the home of Mrs. C. M. Bulson Tuesday afternoon. In compliance with a request of the demonstration agent, the club voted to defer its election of officers until the end of the fiscal year. Since there are nine women on the county executive board, the clubs of the county have been divided in nine units and these units are to elect a delegate to the annual meeting, the delegate to become one of the official board, thus giving equal representation through the county. Each club in the unit sends five representatives to the meeting, which will be called for the purpose above stated. The women appointed to represent Schenectady club are Mrs. E. Theysen, Mrs. O. Atkin, Mrs. Wm. Hall, Mrs. Edith Chase and Mrs. John Wild.

Annual School Meeting.

The annual school meeting of district No. 4, town of Maryland, was held at the high school building Tuesday evening. James P. Friery was appointed chairman and Edward F. Theysen, clerk. The chairman appointed Mrs. John W. Chase and William R. Robbins as tellers. Rev. Thilpaugh and Edwin R. Campbell were elected as trustees for three years; Mrs. Lucy A. B. Chase and Horatio P. Becker as trustees for two years; and Mrs. Phelan C. Lippincott and Philip Briggs for one year. It was voted to raise \$6,500 by taxation. This is approximately ten percent more than was raised last year.

High School Notes.

Regents examinations will begin at the high school Monday, June 17, and continue through Friday, June 21.

Schenectady High school has again been appointed by the Education department to conduct a teachers' training class. Already a number have made application to the class for next year. Any student who has had three years of high school training and has approximately 54 academic counts is eligible to enter the class.

The students of the high school and the grades combine in giving an entertainment in Chase and Bennett hall next week Friday night, June 14. The day being Play Day, the exercises will be of a patriotic nature. In addition to the popular pantomime play, "Little America," there will be given a play-ette entitled "Friends of Uncle Sam." There will be other equally interesting features.

As a part of the commencement festivities, "Alumni Day" will be observed Tuesday, June 25. It is hoped that the ten, fifteen, twenty-five, and

thirty-year classes will have reunion. Special mention will be made this year of the class of 1893. A representative of this class will bring greetings for the class at the reception in Chase and Bennett hall, which is scheduled to take place from 7 until 9 o'clock Tuesday evening. The reception will be followed by Class Day exercises in charge of this year's graduating class. The formal commencement will occur Wednesday evening, June 26.

Despite their great difference in stature, the two men are inseparable pals.

Bathed While Building Burns. Mrs. Stella Totten, a comely young matron, was enjoying an afternoon "tub" in her apartment on the third floor of the Addicks building, the Woolworth tower of a nearby suburban town, when there came a noisy knocking at the door. "Who's there?" inquired Mrs. Totten, timidly, recollecting that the door was unlocked. "It's me—Bill Stone," was the gruff answer. "Please don't come in, Mr. Stone—I'm in the tub. Who are you, and why are you here?" "I'm Bill Stone of Hook and Ladder 27; the house is on fire, and I've come to get you." "I thought the water was getting rather hot," said Mrs. Totten. In less than a minute Bill Stone emerged from a third-floor window, and amid the plaudits of the surging crowd, safely carried Mrs. Totten, wrapped only in a blanket, down the ladder and delivered her safely in a nearby hotel.—New York Times.

HOW TO GET RID OF RHEUMATISM

"Fruit-a-tives" Point the Way to Quick Relief

VERONA. "I suffered for a number of years with Rheumatism and severe Pains in my Side and Back, caused by strains and heavy lifting.

When I had given up hope of ever being well again, a friend recommended 'Fruit-a-tives' (or Fruit-Liver Tablets) to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health.

PARIS EATS MORE HORSES

Prices Rise From 26 to 40 Cents for Ordinary Cuts—Supply From British.

Paris.—A more extended sale of horse meat is counted upon by the city authorities to relieve the provisions market. The sale of horse flesh for many years has been considerable in the poorer quarters of Paris. It has increased considerably during the war. Last year 43,384 horses were killed at the Vaugrard slaughter houses. The increased supply of horse meat had no depressing effect upon prices, however. The British army is now the chief source of supply. More than 12,000 horses were received from that source last year, yet the prices went from the equivalent of 28 cents a pound to 40 cents for ordinary cuts and from 45 to 50 cents a pound for the choice.

Time for Seeing Appointed. Our eyes are hidden that we cannot see the things that stare us in the face until the hour arrives that the mind is ripened; then we behold them and the time we saw them not is like a dream.—Emerson.

Be Explicit. Many a salesman loses a sale because he expects to be understood. A salesman must not expect anything; he should be explicit if he don't want to be disappointed.

Save Fuel Wisely

Saving fuel is working hand in hand with the Government these days. And one way to save wisely and well is to use SO-CO-NY—the quality gasoline. It means minimum consumption and maximum power.

Inferior, low-grade mixtures mean waste in the form of increased consumption, lost power and excessive carbon deposits. There's power in every drop of SO-CO-NY. It's clean, quick starting; reliable; obtainable everywhere.

Look for the Red, White and Blue SO-CO-NY Sign. It's the wise way to save fuel.

AMERICANS ARE HELPING.

In the big fight which now is going on in the Flanders plains, a fight the outcome of which may not be impossible determine the destinies of the world, the American soldiers are coming in. Already in many places where the battle has been hottest they have shown their mettle; and in more than one place they have checked the German advance. On that Maine front where four years ago the intrepid soldiers of France stood like a rock to bar the progress of the Hun toward Paris, the Americans are standing now, and they are making good record for themselves. It was at first thought that they would need to be brigaded with seasoned soldiers in order to be effective. This was done with good results, but elsewhere they have been tried out and have displayed the characteristic American quality of "going it alone."

The Americans on the other side of the ocean are helping to stem the Prussian tide. The Americans on this side should be as brave and as self-reliant and present as firm a front to the enemy. In our own way we can make as strong a drive. We can do our share in the purchase of Liberty Loan bonds, of Thrift and War Savings stamps, our share in the conservation of food products in the homes, our share in the production of foodstuffs, and ours in every form of work which comes to hand. The Americans on the battle front are a sturdy lot. They are helping to preserve Liberty to the earth. It is a great work to which their lives are consecrated. Shall we not also say and without the shadow of question as to the sacrifice, that at home Americans are helping?

PROMPT PAYMENT OF TAXES.

"Never before in recent years has state's direct tax been more promptly and completely remitted than during the present fiscal year." State Comptroller Travis announced tonight. Less than \$206,000 remains unpaid, the comptroller reported, and this situation he considers remarkable as the delinquent amount in 1916 exceeded one and three-quarter million dollars. The levying of the state's direct tax for sinking fund requirements is mandatory under the constitution, and in voting for the issue of bonds, the people of the state themselves pledged to pay a direct tax each year until these bonds are redeemed. This additional burden is not oppressive when the taxpayer considers the advantages derived from the magnificent public enterprises, such as canals, highways, forest preserve, etc., which are the reasons for an occasional return to this form of taxation. In other words, he has paid less than 11 cents on every \$100 of valuation, for the purpose of redeeming the bonds his vote authorized the state to issue in order to pay for these improvements.

DELAWARE R. C. CONVENTION.

Delhi to Get the Red Cross People of the County Together.

Next Tuesday, June 11, Delhi will hold a county Red Cross convention to which everybody in the county is invited. This will be a big, inspirational meeting with fine music, patriotic speeches and informal talks covering all phases of Red Cross work. It will be an event of great importance to all who are interested in the success of the Red Cross. Everyone is anxious to see this organization make good and it is up to the workers to get a big attendance at the convention. No one who has an automobile can do a better thing for the good of the cause than to take a load to Delhi Tuesday.

The morning session opens at 11 o'clock. There will be a buffet luncheon at noon, everybody being the guest of the Delhi Red Cross. An orchestra will be present. There will be a fine quartet in old and new patriotic songs.

The Atlantic Division headquarters is to send several prominent speakers. The evening meeting will be addressed by Roy F. Soule, editor of "Hardware Age," one of the greatest of the country's business magazines. Mr. Soule is a speaker of remarkable force and his appeal is of the strongest. No business man in the county should miss his speech.

In the afternoon there will be a series of 15-minute talks on subjects of great interest to the Red Cross: "How to Interest the Farmers in Joining," "How the Churches Can Help," "How to Use Four-Minute Speakers," "How We Got the Members," and other subjects. New York speakers will explain the Home Service work, Junior Red Cross, etc.

Ask the secretary of your Red Cross to find you a place in some load going to the convention. If you have no car, rain should not be allowed to keep anyone away. In these times the Red Cross people cannot afford to be fair weather workers.

The Line Vanishes.

"Tank," is the nickname which the British "Tommy" gives to his American trench mate. There goes the last of Mason and Dixon's line. [New York Sun]

COMMENTS OF THE PRESS

The "Excess" that Bothers.

What bothers most of us more than the tax on so-called excess profits is the tax that we have to pay in the form of excess prices. — [Albany Journal.]

It Makes Us Wonder.

Now and then we see figures that almost make us wonder whether somebody's adding machine should not rather be termed an adding machine. — [New York Evening Post.]

Our boys Getting Rough.

It is reported that the American troops have been using sawed-off shotguns in the trenches. Aren't our boys getting rough? They'll be using brass knuckles next. — [Cleveland Plain Dealer.]

The Germans Are Told.

The Germans have been told that "the enemy penetrated Cantigny." When they learn that the Germans failed in six attacks to get it back they may guess that the enemy is the "lightning trained" Americans. — [Syracuse Post-Standard.]

The Value of Corn.

With an increased percentage of cornmeal now required of bakers in the production of bread, there is a prospect that Americans will presently come to appreciate more generally the value of a cereal of which they hold almost a monopoly. Everything will depend upon the bakers, however. — [New York World.]

Concerning Creel.

Mr. Creel fortunately escapes attack at one point by having 13 Republicans at the head of divisions in his bureau, as compared with eight independents and five Democrats. Unlike a certain distinguished party leader, Mr. Creel has no particular use for "deserving Democrats." On party lines, his divisional organization makes a very good showing; it even indicates that Mr. Creel has been trying to make the world safer for democracy than for the Democratic party. — [Springfield Republican.]

Where Our Selfishness Comes In.

"Our aim must be wholly unselfish," says the President. That may be all right for Americans on this side of the Atlantic, but it is to be hoped the advice will not percolate through the censorship so as to reach Americans on the other side. When they aim we want them to be chuck full of selfishness—the selfishness of self defense, for the only good soldier is the live soldier, and the selfishness that places the land of their allegiance a little above all others, since its liberty depends upon their aim being straight and true. — [New York Herald.]

Results Count.

These are no times for rash confidence. In a general way the American people may safely trust their lives and fortunes to one another, but more than individual lives and fortunes is now at stake. The freedom of the world, the honor of mankind, the welfare of future generations are involved, and although the great world majority is fighting for just these things, betrayers are abroad and are "more subtle than any beast of the field."

How It Looks.

"Are the meat packers fools?" asked the New York Sun. We have no personal acquaintances among the packers, but considering yesterday's price for a piece of tough beef, we are inclined to regard them as wise guys who are after the coin, and are getting it. — [Utica Observer.]

A Gentleman's Agreement.

There will not be a declared boycott on German goods after the war, but there will be a kind of gentleman's agreement. — [Albany Journal.]

Misguided men.

The most misguided of all men were those who assumed that all the mothers of America were pacifists. They want peace, but not a German peace, for they know what it means. — [Portland Oregonian.]

The Financial Uplift.

The wage increase given the railroad employes almost lifts them out of the class of poor old ultimate consumers. — [Albany Argus.]

Better Than Promised.

While the shipbuilding program was slow in starting, it is evidently going now even better than was promised. — [Syracuse Post-Standard.]

QUALIFY FOR COUNTY CONTEST.

Winning Contestants Announced For Fourth Otsego District.

Spelling contests are being held throughout the county of Otsego, and the winners in each contest will be qualified to compete in the county contest which will be held at the High school building in this city on Tuesday, June 11. The winner of the county contest will go to the State fair at Syracuse at the expense of the state and will there compete for the state prizes of \$20, \$10 and \$5 besides a certificate of certificate of proficiency in spelling.

In the Fourth Otsego district Superintendent Fredericks announces the following winners in the township:

Oneonta—Flora Clark.
Unadilla—Nathan Rait.
Otsego—Martha Boyd.
Milford—Hester Sherman.
The Oneonta Normal grades and the Oneonta City Public schools are each entitled to candidates, but their examinations have not yet been held.

WILL AID IN HARVESTING CROPS

State Food Commission Planning to Help the Farmer to Full Extent.

The State Food commission, through the various branches of its organization, is planning to aid the farmer in harvesting crops to the fullest extent. Charles W. Reynolds, district organizer, has been in Oneonta and adjacent communities during the past week, assisting F. R. Bennett, farm labor specialist of Otsego county.

Each community is being organized, and unskilled men are being trained in their support to the work. It is the purpose to ask the men in each village and community in the county to contribute as many hours per day or per week as can be spared from necessary labor, to aid the harvesting of crops. Unadilla, Otsego, Schenectady, Morris and Cooperstown have been thoroughly organized for this work, and each has responded in a substantial manner. In Cooperstown the Chamber of Commerce has undertaken the work, and is meeting with splendid success. A meeting is to be held in Worcester tonight, and every indication points to the same enthusiasm as indicated in other places.

The purposes of these community organizations is to stimulate interest in the farm, and help, if possible, to replace 25,000 men taken from the farms in this state.

The matter will be taken up in the city of Oneonta through the city officials Friday night in Municipal hall.

SOUVENIRS FOR DELEGATES.

U. T. C. Will Present Convention Visitors With Elaborate Program.

One of the interesting features in connection with the entertainment of the United Commercial Travelers in Oneonta next week, will be that each delegate and visitor to the convention will carry away a copy of the forty-four-page souvenir program, which will give some interesting illustrations and data touching the city.

The committee having the work in hand has spent considerable thought in preparing a booklet that will do credit to the organization and to the city. The book is being printed by the Otsego Publishing company, and it is expected will be ready for delivery the first day the convention assembles.

Many of the prominent buildings will be represented by half-tones, as well as pictures of prominent men of the organization.

The committee feels it was very fortunate in being able to secure a photograph of H. E. Huntington, donor of the new park and library. This picture will occupy a prominent place in the book.

The work will represent the very highest type of printers' art, and will be printed on high-grade paper. It will prove a credit to Oneonta and the local council issuing it.

OTSEGO CO. UNIVERSALISTS.

Eighty-Fifth Annual Meeting of Association in Oneonta Next Week.

The Otsego Association of Universalists will hold their eighty-fifth annual meeting Wednesday and Thursday of next week at the Chapin Memorial church in this city. Irving J. Seckner of Richfield Springs is the president of the association, Mrs. Horstense Maynard of Cooperstown the clerk, and Rev. William Gaskin of Oneonta will be the pastor in charge. The first session opens at 10 a. m. on Wednesday, June 13, with an address of welcome by Rev. William Gaskin and response by President Seckner. The remainder of the morning session will be spent in routine business of the association.

The afternoon session on Wednesday will include a devotional service by Rev. F. G. Leonard of Morris, an address on "Patriotism and Universalism" by Miss Helen Ulrich of Oneonta, a round table conference on missionary work, an address by Floyd J. Beach of Binghamton on "Our Future Citizens and the Sunday School," and a question box. Supper will be served at 6 p. m. In the evening the occasional sermon will be preached by Rev. Charles Kramer of Cooperstown, and afterwards the Holy Communion will be celebrated.

The concluding session will be held Thursday morning. The program in-

cludes an address on "The Church and the New Day" by Rev. W. C. Selleda, D. D. of Utica, the reports of committees and the election of officers. The entire program is of unusual interest, and it is believed that there will be a large attendance.

HALF BILLION OF SEALS.

Red Cross Already Making Preparations for Annual Christmas Sale.

The National Tuberculosis association is already making preparations for the stamp sale, which annually, for several years has been held under a co-operative agreement with the American Red Cross. There are now 600,000,000 stamps being printed, and the objective is at least to double the sale of last year, which as shown by a recently completed tabulation amounted to 175,000,000, or 69 per cent more than in any year previous. The stamps to be used this year are designed by Charles A. Winter, a prominent New York artist, and are in red, green and brown-black on a white field. Further information regarding the stamp drive will be furnished at a later date.

Eat more potatoes, drink more Otsego coffee, buy more War Stamps, help boom the War Chest, as Kaiser Bill's war chest is nearly busted now. advt. 12

bers and Mrs. Martha Strong an as-
sociate member. The club member-
ship is nearly full at present.

Announcement is made that the
Central New York fair will be held
in Oneonta Sept. 16, 17, 18, 19 and
20. The state and federal depart-
ments of agriculture are anxious that
the fair should be a great success this
year and during the war especially,
in order to assist in agricultural pur-
suits.

EIGHT GO TO SLOCUM.

Three Young Men Enlist at Local Re-
cruiting Station.

Eight men will be entrained today
on the first leg of their journey to as-
sist in eliminating the Hun mili-
tary by fighting with the American
army in France. Two of them are
Oneonta boys, one comes from Stam-
ford, the others are Binghamton
youths. They will leave on the 7:20
A. M. train to go by way of Pough-
keepsie and the Hudson river day line
to Fort Slocum.

The three who enlisted at the local
recruiting station are: Myron E. Mc-
Neely, 24 Broad street; Grant G. Rob-
inson, 28 Linden avenue, and Silas D.
Crumb, Stamford; all for the Quar-
termaster's corps.

The Binghamton men are: En-
gineers—Martin E. Hannahan and
Elmer P. DeWitt; infantry—Charles
F. Bayles; field artillery—George E.
Pierston; cavalry—Irving R. Harris.

SAVED FROM THE CAROLINA

FORMER ONEONTA WOMEN
AMONG PASSENGERS ON
TORPEDOED SHIP.

Mrs. Victoria Viruet and Daughter,
Romania, Reach Albany Yesterday
—Will Accompany Brother, J. D.
Viruet, to Oneonta.

Much anxiety had been felt in the
home of J. D. Viruet of 2914 Chest-
nut street all this week on account
of Mr. Viruet's mother and sister,
who had been spending three years in
Porto Rico, their native island, and
who were understood to be on their
way home on the steamship Carolina.
Tiding to this effect were received
last week by Mr. Viruet, the letter
stating that they would sail on the
26th of May, and that they were due
in New York on the third of June.
Mr. Viruet accordingly left Oneonta
on Sunday to meet them and to ac-
company them to this city, but on his
arrival in New York was met by tid-
ings of the submarine raid, and the
reported sinking of the Carolina.

Monday and Tuesday were doubt-
less days of anxiety to Mr. Viruet, who
remained in New York waiting for
further tidings, but these anxieties
were set at rest yesterday morning
when the survivors of the Carolina
were brought into port, and among
them the mother and sister. No time
was lost in notifying the anxious wife
in Oneonta and the not less anxious
sister, Mrs. Edward Iglesias, in Al-
bany. To each the message, "They're
saved," brought such relief and joy
as only those who have been under
similar tension can understand. The
message received by Mrs. Viruet in-
dicates that they are on their way to
Albany, if indeed they have not ar-
rived there, and that they will soon
be in Oneonta. Up to this time no
story of their experiences has been
received. That it will be an interest-
ing one there is no doubt.

Mrs. Viruet and daughter resided
for several years with their son in
this city and Miss Viruet graduated
from the Oneonta Normal school a
few years ago. Later she returned to
Porto Rico with her mother and en-
gaged in teaching there. The Al-
bany Journal states that Miss Viruet
was on her way north to teach for
the summer, but it is believed here
that she did not expect at once to
engage in that work.

Many friends in Oneonta will con-
gratulate mother and daughter on
their narrow escape and will welcome
them again to the city which former-
ly was their home.

SCHOOL SHOWS PATRIOTISM

Excellent Program of Song, Dance and
Recitation Given at Center Street
School Yesterday Afternoon for
Benefit of Mothers.

A most interesting and delightful
patriotic program, in which all the
participants were scholars of the pri-
mary and intermediate departments
was held in the Center street school
yesterday afternoon. About ninety
mothers were present to witness the
exercises.

"The Keys of Calais," a dramatiza-
tion in costume, was given by the pu-
pils of grades five and six, picturing
historic Calais, France, on an August
day in 1417, with the English army's
camp upon the seashore near the walls
of the city. A most touching scene
was enacted when just as six citizens
of Calais were about to be beheaded
under stern orders of King Edward,
Queen Philippa made a stirring ap-
peal for their lives inasmuch as they
had come voluntarily to pay the death
penalty so that their fellow country-
men might be saved. Arthur Ed-
munds and Helen Decker took the
parts of king and queen.

Folk dances by the younger children
of the primary department—Italian,
French vineyard, English navy May,
Scottish, and Irish dances—were a
striking feature of the program. They
were exceedingly well done.

SEVEN MEN RETURN FROM CAMP

UNABLE TO MEET THE REQUIRE-
MENTS OF THE MEDICAL EX-
AMINATION BOARD.

Conditions at Camp Wadsworth Very
Satisfactory Reports Mr. Chamber-
lain—Men Assigned to Company A
of the 52nd Pioneer Regiment—Al-
ternates Will Be Sent.

Of the 57 men who left Oneonta on
May 28 for Camp Wadsworth, Spar-
tanburg, S. C., the following seven re-
turned yesterday to Oneonta, having
failed to meet the physical require-
ments of the medical examining board
at the camp: John Brace, B. B. Cham-
berlain, Arthur Dudley, Maxim Ermo-
luk, David Maples, Walter Roman and
Basil Woodheater.

Speaking of their experiences Mr.
Chamberlain said: "I can report con-
ditions at the camp as the best. All
the boys are in good health and evi-
dently enjoying themselves very much.
Upon arrival at the camp, the boys
were put in as a part of Company A
of the 52nd Pioneer Infantry. This
proved to be a very satisfactory dis-
position, both in the general character
of the work which it is expected that
this company will do, and in the officers
under whom they were placed. All
are agreed that the officers of this
company are a fine lot of men.

The weather for the first few days
was extremely warm, but the officers
showed the men every reasonable con-
sideration in giving them an oppor-
tunity to get used to it, and conse-
quently nearly everyone stood it well.
A remark made by one of the boys on
the way down serves very well to il-
lustrate their spirit: "We don't get
very much pay, but loo' at the fun
we have." And most everyone agreed
to the extent that the remark has be-
come a sort of camp expression among
the boys.

The address for the boys, while
there, will be Private John Jones,
Company A, 52nd Pioneer Inf., Camp
Wadsworth, S. C., and when they go
across, it will be the same except that
American Expeditionary Force will be
substituted for Camp Wadsworth,
S. C., and as a last word to friends
and relatives of the boys, don't worry
about them, as their quarters are
good, the food is such that no one
should kick and they certainly are in
good hands as far as their officers are
concerned. My own regret is that I
was not permitted to remain with them."

FLAG DAY PROCLAMATION

Mayor Ceperley Requests General
Display of Colors and Uniforms
Observance.

Friday of next week will be Flag
day, and in compliance with the re-
quest of Governor Whitman that
municipal authorities throughout the
state request formal observance
thereof on the part of their citizens,
Mayor Ceperley has issued the fol-
lowing

Proclamation:

Whereas Friday, June 14, is offi-
cially designated "Flag Day," and is
to be universally observed in honor-
ing and displaying our national col-
ors; and

Whereas, the Merchants' associa-
tion of this city has decided to close
business places on the afternoon of
that day, that people may have time
and opportunity for its proper public
observance; and—

Whereas, it is a time when every
patriotic citizen should pledge anew
his loyalty to his country; and show
his love for the flag by displaying it
as an evidence of willingness to sac-
rifice his means and to give his ser-
vice, if needs be, in defense of his
country and the maintenance of its
foundation principles; now

Therefore, I, A. E. Ceperley, mayor
of the city of Oneonta, do call upon
all loyal citizens of this community to
recognize the day by a liberal display
of the flag, and by public observances
and teachings of the lofty ideals
which it has always symbolized.

In accordance with the same I re-
quest that business houses close at 3
p. m. on that day, and that all join
in the parade and exercises now be-
ing arranged, as an evidence of loy-
alty and consecration of our all on
the altar of our country's needs.

(Signed) A. E. Ceperley, Mayor.

Dated June 5, 1918.

A perfect tire is simply a question of care and skill and cost.
Formulas, fabrics and standards vary vastly in cost. And
they vary as much in endurance. Reinforcements, plies and
thickness are a matter of expense.

In every tire factory the great question is "How much can
we give for the money?" And the tire depends on the policy.

That is the whole answer. And, since it has always been the

A RESPECTED RESIDENT.

Mrs. Elizabeth Youngman Dies Yesterday Following Shock.

Mrs. Elizabeth Youngman, a respected, life-long resident of Oneonta, died at about 4 o'clock yesterday afternoon, at her home at 307 Main street, following a shock which in the morning she suffered. Mrs. Youngman had not been in the best of health for several months, but of late had been feeling better and so expressed herself to her nephew, B. M. Swart, on a few minutes before she suffered the shock from which she died. She was down town on business in the morning and went at about 9:20 o'clock to the trolley station on Chestnut street to await the car for East Oneonta. The waiting room was vacant save for her and the agent stepped out for a few minutes. Before his return Hoscoe Burdick, an assistant at the station, entered and found Mrs. Youngman lying upon the floor. He secured assistance and lifted her up, when Mrs. Youngman gave her name and home. Medical assistance was at once summoned and she was taken home. She became unconscious, however, before leaving the station, and without again regaining consciousness sank gradually and peacefully to rest.

Mrs. Youngman was born July 13, 1855, on the Cousa homestead, which, with the exception of two years spent elsewhere in the city, was during her whole life her home. She was a daughter of the late Erasmus and Polly Cousa and was married in 1875 to Orrin Youngman, who died October 8, 1901. Her only surviving descendant is a daughter, Miss Claire Electa Youngman, who resided with her. Other immediate relatives are one sister, Mrs. Julia Yager; two nieces, Mrs. William Barlow and Mrs. Coral Griffin; and two nephews, Burton E. Swart and Charles Yager, the latter of Alaska. All the others are residents of Oneonta.

The deceased was a member of the Methodist Episcopal church and through the whole of her life demonstrated by her acts the sincerity of her faith. She was a loving mother, a kind friend and neighbor and by all who knew her greatly respected and beloved. She was charitable in thought and act and during her life made many warm friends who will deeply sympathize with the daughter, who had been her constant companion, and on whom the blow falls heavily.

Arrangements for the funeral, which will be private, have not yet been completed. Announcement will be made in a later issue of The Star.

OBITUARY.

Mrs. Margaret A. Brown Wilbur.

In the death of Mrs. Margaret A. Brown Wilbur, widow of the late Charles L. Wilbur, occurring at the family home, 29 Luther street, early yesterday, as told briefly in The Star of that date, there passed away a woman of many endearing qualities, one especially beloved not only in the home but in the church and in the circle of friends. She was quite ill in February, but had been improving for weeks, it was thought, and the summer weather had witnessed further improvement, apparently, and she had planned for the summer with anticipation. The day before she had been out upon the porch. Late in the night she was suddenly taken worse and passed away in about 20 minutes shortly after the arrival of the family physician.

Born at North Kortright, Feb. 12, 1845, the daughter of the late William Brown and Elizabeth Rice, she passed her early life there. She was united in marriage March 22, 1865, with Mr. Wilbur and after two years, passed at Fergusville they removed to Galesburg, Ill., where they remained until 1871 when they returned to New York state and settled here, Oneonta, continuing their home. He passed away Dec. 12, 1914.

Mrs. Wilbur was reared in the United Presbyterian church and when it was first proposed to establish a church here she became one of its promoters and assisted in its organization, remaining a steadfast supporter until her death. She was a member of the Ladies' Aid society, connected with that church, also of the Woman's Relief corps.

The funeral services will be held from the family home on Saturday at 1 o'clock. In the absence of a resident pastor, Rev. Dr. J. C. Russell of the First Presbyterian church will officiate and interment will be in the family plot at Glenwood cemetery.

In addition to the two daughters, Misses Minnie M. and Catharine L. Wilbur, both of whom reside at the family home, she leaves two sisters, Mrs. Kate Draper and Mrs. Jane Hall, both of Schenectady; one niece, Mrs. W. A. Hubbard of Schenectady; and one nephew, Charles A. Bell of this city. To the daughters, especially the sympathy of numerous friends will be extended.

REX BEACH'S American Classic "HEART of the SUNSET"

NO SWEATERS NOW FOR BOYS.

Warm Weather Causes Delay in Giving Garments to Draftees.

No more sweaters will be given to the men called in subsequent drafts, according to an announcement made by the local Red Cross last night. This action came upon the receipt of a personal letter to Miss Ethel Scatchard, secretary of the local chapter, from Mrs. M. E. Baker, superintendent of hospital supplies and garments of the Atlantic division, reading:

"The boys will receive these things just the same; just as good ones as you have been giving them, and will receive them at the hands of the government at the right time and the right place."

The cause for this step is said to be due to the coming of warm weather, when the garments are not needed and are too heavy to carry around with the men as luggage.

For kindness and gifts, the Red Cross yesterday took occasion to express its sincere thanks. Mr. Pudney was thanked for placing an electric sewing machine for use on hospital garments in the rooms. The park commission was thanked for its generosity in permitting the use of eight park tables in the rooms while others were being made from lumber given by a friend of the organization by the manual training students of the sixth, seventh and eighth grades of the Normal school. The pupils are thanked for their work and the Stevens Hardware company for its gift of hardware.

CRAYOLA CRAYONS

GEORGE REYNOLDS & SON

The Hun Bangs His Sword Against Your Door

Every weapon must be used against him, every aid given our armies and our Allies, to bring our boys back home. Coal is needed, vast quantities of it. We can't transport it fast enough. Armies have had to retire and lose for lack of coal.

There is a big supply of kerosene on hand, which you can use instead of the coal that is sorely needed for war purposes. Use the minimum of coal. Supplement it with kerosene—for cooking, and hot water.

You not only do your part in the war by using kerosene, but you do your regular work easier, more economically and more comfortably this hot weather. No ashes, no dirt—just a match and a hot fire. Turn out the fire and your kitchen is cool and no fuel is being used.
